32702 Parr Ave. Mission. (Lower) This is a spectacular near new upper scale home that will be sure to 'WOW' you! This is a 2-bedroom 900 square foot suite in a two storey with basement home. There are stairs going down the side of the home to a garden level entry adjacent to the yard space.

Enter through a huge covered concrete patio area to the main entry and the first thing you will notice is that all the ceilings are over height and the doors are custom to be extra tall and many of the numerous windows are nice and big allowing in lots of natural light. The kitchen, living and eating areas are all open to each other making this a very bright and open space. The gorgeous countertops are a beautiful quartz and there is a wonderful island with eat up bar.

The two bedrooms both have large closets with custom organizers in place. The one bedroom is quite sizable and the other about average. The one full bathroom is so pretty also with higher end finishing that will not disappoint.

There is private in suite laundry and electric baseboard heat for your comfort and convenience. The lot is fairly compact at 5167 square feet, so will be quite low on maintenance, and whomever occupies the space, it would be appreciated if they could assist with the property upkeep to keep things very nice. The yard in the back will be a shared space. There is parking for 1 on the driveway and street parking is also available on the north side of the road only.
